# NIKHIL PATHRABE

AI ENGINEER | GENERATIVE AI • RAG • VOICE AGENTS • CI/CD

pathrabenikhil23@gmail.com | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

AI Engineer with hands-on experience building AI-powered interview agents, retrieval-augmented generation (RAG) systems, web crawlers, and CI/CD deployment workflows. Focused on reliable production delivery, voice-agent integrations, and practical AI systems serving large user populations.

## EXPERIENCE

**AI Engineer | Bootcoding**
September 2025 – Present

• Developed an AI Interview Agent integrating LiveKit, LLMs, speech-to-text (STT), text-to-speech (TTS), and Google Cloud Platform (GCP).
• Built and improved a RAG-based system, achieving approximately 90% retrieval accuracy.
• Worked on CI/CD deployment pipelines to support repeatable releases and production delivery.
• Supported a deployed system serving approximately 200,000 students, with reported system uptime around 90%.

## PROJECTS

**AI Interview Agent**
**Technologies:** LiveKit, LLMs, ChatGPT 5.4 mini, STT, TTS, GCP
Built an AI-driven interview agent with voice interaction capabilities; deployed for approximately 200,000 students.

**Job Update Crawler**
**Technologies:** PyWrite, PostgreSQL
Created a crawler to collect newly uploaded job listings and support notifications for the latest job updates.

## TECHNICAL SKILLS

**AI / GenAI:** LLMs, RAG, AI Agents, Retrieval Accuracy Evaluation
**Voice AI:** LiveKit, STT, TTS
**Cloud & DevOps:** GCP, CI/CD Pipelines, Deployment
**Data & Backend:** Python, PostgreSQL, Web Crawling

## EDUCATION & ACHIEVEMENT

**B.Sc. — Mohota Science** | 73.5%
**Achievement:** Robotics- and IoT-based robot ranked 1st in an intercollegiate competition.
